# Royal Protection, Solidly Crafted

India's Premium Steel Door

# PEOPLE'S ATTRACTION

Petra is the first and final choice of people

## About Us

Technology, as well as utility, are two things that drive Petra Premium Steel doors forward. Why waste one's hard earned money on doors made of wood- a less durable substance, which steel is solid, safer, and cheaper? Petra premium Steel doors was made possible between that one thought and the brand that we have become today. Looking no different than a wooden door, Petra premium Steel doors bring you durable and indestructible steel doors at the best prices that anyone can afford.

## Mission

Ensure to provide quality and unbeatable products to impart the customers with a satisfied and money-worth experience. Also to be indebted to the environment for its benefaction to the world and to give inspiration for producing eco-friendly door options.

## Vision

Our resolute vision is to be the pinnacle of customer fulfilment presenting them with exceptional products and unparalleled service that personify distinction and opulence.

# Features

## Security

Steel doors provide excellent security, as they are strong and difficult to break through, offering peace of mind for home and building owners.

## Low Maintenance

Steel doors require minimal maintenance, as they are resistant to warping, rotting, and cracking, saving you time and effort.

## Design & Size Options

Petra Steel Doors come in various designs and sizes, allowing you to choose a style and size that complements your property's aesthetics.

## Easy Installation

Installation of Petra steel door is relatively easy, because of the well-designed structure and accompanying installation instructions.

## Durability

Steel doors are highly durable and resistant to wear and tear, making them a long-lasting investment for your property.

## Multi-Point Locking System

This enhances the security by offering superior resistance to forced entry. It adds an extra layer of protection by securing the door at several points along its frame.

## Galvanized Iron Doors

One key characteristic of our doors is that they are made from galvanized iron, which provides exceptional strength and resistance to corrosion.

## Fire Resistance

Steel doors have fire-resistant properties. Unlike wooden doors, it's impossible to catch fire to steel doors, providing an added layer of safety to your home or business.

## UV Protected

Our steel doors are UV protected, This feature prevents the door from fading, cracking, or warping over time, ensuring it retains its aesthetic appeal and structural integrity.

## Weather Resistance

Steel doors are highly resistant to weather elements, including extreme heat, cold, and moisture, ensuring their longevity. It is also resistant to termite attacks.

## Eco-Friendly

Steel is a recyclable material, making steel doors an eco-friendly choice for those concerned about sustainability. Also a better alternative for wooden doors thus saving our trees.

## Noise Reduction

Steel doors offer excellent soundproofing, helping to minimize external noise and create a quieter indoor environment..

## PTR 400

Petra Premium Steel Doors offer unmatched durability, ensuring long-lasting protection and security for your property. With their robust construction, they can withstand extreme weather conditions and provide reliable performance.

2050x1800x70mm | 9"

## Inside-out

Doors are designed to be fully flushed without any joints on the surface. The door and the frame are provided with adequate internal reinforcement in specific areas where hardware is mounted for additional strength.

The honeycomb infill has high crushing strength leading to impact resistance. The infill material also ensures there is no metallic noise while the doors are knocked or closed.

The frame is made with mitered joints. It arrives in knocked-down form and is assembled on site. The frame is mounted on the wall opening with suitable anchor fasteners. The frame can also be filled with PUF or cement slurry (as required) to give a solid feel.

**Internal Support Elements**

- Steel reinforcements are provided internally for structural stability integrity.

**Honeycomb Filling**

- This hexagonal infill made out of craft paper has unique properties that enhances structural integrity and ensures minimal weight addition.

**Galvanised Steel Sheets**

- The steel used in the doors is galvanised, coated with primer and painted. This offers triple protection from any atmospheric interaction. They are easy to maintain, tough to the core and provide the greatest longevity.

**Multi Locking System**

- Multi locking system with solid metal.

## PTR 110

Whether in residential or commercial settings, our steel doors with noise reduction capabilities provide occupants with a quieter and more serene atmosphere, allowing for increased concentration, privacy, and overall comfort.
